Exam Preparation

Please share this page with your patient

Open MRI / MRA

Wear loose, comfortable clothing with no metal buttons, snaps or zippers. Jewelry, hair pins and removable metal must be removed before the exam. Unless told otherwise, eat and take your medications as usual. Tell us about any implants, devices or metal in your body, and bring a list of current medications.

MRI Arthrogram

Please call at least 24 hours ahead if you take blood thinners (such as warfarin), have diabetes, have a contrast allergy, are being treated for an infection, or are claustrophobic. You will give written consent before the exam.

CT

You may be asked not to eat or drink for a few hours before a contrast exam. If you are over 60, diabetic, or have a history of kidney disease, bring BUN and creatinine (or GFR) results from the past 60 days. If you are allergic to iodine, your physician may order a 13-hour pre-medication prep.

Ultrasound

Abdominal exams: you may be asked not to eat or drink for up to 12 hours beforehand. Pelvic exams: drink up to six glasses of water two hours before your exam and arrive with a full bladder.

X-Ray

No preparation is needed. Please tell the technologist if you are, or could be, pregnant.

What to bring

Insurance card, photo ID, this order or your referral, any prescription information, and your completed patient forms (available at munsterimaging.com/patients.html).

LOCATION & HOURS

Munster Open MRI & Imaging

8840 Calumet Ave, Suite 102, Munster, IN 46321
Phone (219) 237-2988 | Fax (219) 237-2193 | info@munsterimaging.com
Monday - Friday 6:00am - 6:00pm | Saturday 8:00am - 2:00pm | Sunday closed

Most exams can be scheduled the same or next day. Every study is read by a U.S. board-certified radiologist who specializes in that body part, with results sent to the referring physician within 24 hours, or STAT when needed.
